

Miles of Smiles Dental Sealant Program:

Bassett Grade school will hold their first ever dental sealant program on Friday September 12th. North Central District Health Department's (NCDHD) *Miles of Smiles* program is partnering with the University Nebraska Medical Center College of Dentistry to provide the Rock County children with a dental screening, fluoride varnish, and dental sealants- if needed. All children in preschool-6th grade in the Bassett grade school and surrounding rural schools will be invited to participate in the program. Parent permission forms will be sent home prior to the date and all children that return signed parent permission forms will receive a tooth brush and tooth paste. In addition, children for whom permission is given will receive the screening, fluoride and sealants- if needed. If you have any questions about this upcoming event, please contact Sara Twibell with NCDHD at 402-336-2406.
